NAVIPPRO™ presents at the Food and Drug Administration

Newton, MA, -- On June 4, 2008, the Inflexxion team presented the National Addictions Vigilance Intervention and Prevention Program (NAVIPPRO) to an audience of approximately 100 as part of the Scientific Rounds at the Food and Drug Administration in Rockville, Maryland. Stephen F. Butler, PhD, Chief Science Officer at Inflexxion, and John Brownstein, PhD, NAVIPPRO Senior Consulting Advisor, led the presentation.

The NAVIPPRO presentation highlighted Inflexxion's ASI-MV® Connect data stream, which serves as one component of NAVIPPRO's surveillance capabilities. The presentation also focused on the epidemiologic applications of NAVIPPRO data for identifying patterns and trends in prescription drug abuse.

The NAVIPPRO presentation comes at a time of increasing concern about prescription drug abuse and an increasing awareness of the need for a system to monitor such abuse.
